

Reception Flip Learning

Asalamu'Alaikum,

We are now approaching the end of the school academic year, next week your child will be assessed on different aspects in literacy so that we can have the best fit judgment of where your child is at before they move onto year One. The areas which we will focus on next week with your child are:

- Writing
- Reading
- & Phonics

Reading and Phonics will be done through teacher observations, listening to them in class individually. Whereas for writing, your child will be asked to write an independent piece of writing.

To support your child and prepare them for next week, please do the following activities:

- Read a story with your child and ask them questions based on the story. This is called comprehension as it will help you identify whether your child has understood what has been read to them and can use the information from the story to answer questions.
- Give your child a spelling test of as many words as you can think of and assess whether they can spell them correctly. Please do not worry if some of the spellings are spelt incorrectly as this is okay for their age as long as you can understand what your child has written.
- Get your child to think about their favourite story. Now get them to write the story in their own words. Remind them to write about what happened at the beginning, middle and end.
- Test your child to make sure they know all their Phase 2 sounds and Phase 3 sounds.

Please do as many as you can!
