

# Area of a Triangle (3)

Triangles not to scale

Calculate the area of each triangle by using the formula:  $\text{base} \times \text{height} \div 2$ .

Triangles F, H and J are isosceles triangles and the dotted lines on them are lines of symmetry.

A =  cm<sup>2</sup>

B =  cm<sup>2</sup>

C =  cm<sup>2</sup>

D =  cm<sup>2</sup>

E =  cm<sup>2</sup>

F =  cm<sup>2</sup>

G =  cm<sup>2</sup>

H =  cm<sup>2</sup>

I =  cm<sup>2</sup>

J =  cm<sup>2</sup>

# Area of a Triangle (3)

These shapes have been made with identical triangles. Find the total area of each shape.
