## 4/03/23

## Year 5/6 Math Homework

- Year 5
- Here is a right angle and a straight line.

How many degrees are there in a right angle?
How many degrees are there on a straight line?

- Complete the sentences to describe the types of angles. acute angles

$\qquad$

Acute angles are less than $\qquad$ ${ }^{\circ}$.

## obtuse angles

Obtuse angles are greater than $\qquad$ - but less than $\qquad$ $-$

## reflex angles

Reflex angles are greater than $\qquad$ ${ }^{\circ}$.

- Draw and label two different diagrams that show each type of angle.

```
- acute obtuse . reflex
```

- Classify angles $a$ to $g$ as acute, obtuse, reflex or right angle.

- Sort the angles into acute, obtuse and reflex.

- Draw a triangle and a quadrilateral.

For each shape, label the angles as acute, obtuse, reflex or right angle.

Compare diagrams with a partner.

## Year 6

20 cars drove past a school one morning.
The table shows the colours of the cars.
Complete the table and show the information on the pie chart.

| Colour | Number | Fraction <br> of total | \% of <br> total |
| :---: | :---: | :---: | :---: |
| Red | 5 |  |  |
| Blue | 5 |  |  |
| Black | 10 |  |  |

100 people were asked to name their favourite ice cream. The table shows the results.

Use the information to draw a pie chart.

| Flavour | Number | Fraction <br> of total | \% of <br> total |
| :---: | :---: | :---: | :---: |
| Chocolate | 10 | $\frac{1}{10}$ | $10 \%$ |
| Vanilla | 30 |  |  |
| Strawberry | 20 |  |  |
| Mint | 40 |  |  |

- Draw a pie chart using the data shown in the percentage bar model.

| apples | oranges | strawberries | bananas | pears |
| :---: | :---: | :---: | :---: | :---: |
| grapes |  |  |  |  |

 $0 \% \quad 10 \% \quad 20 \% \quad 30 \% \quad 40 \% \quad 50 \% \quad 60 \% \quad 70 \% \quad 80 \% \quad 90 \% \quad 100 \%$

What is the same and what is different about the two diagrams?

- The table shows how 36 children travel to school

| Type of transport | Number of children | Angle |
| :---: | :---: | :---: |
| Car | 12 | $12 \times 10=120^{\circ}$ |
| Bike | 7 |  |
| Walk | 8 |  |
| Bus | 5 |  |
| Scooter | 4 | $360^{\circ}$ |
| Total | $\mathbf{3 6}$ |  |

Complete the table.
Use a protractor to help you draw a pie chart to show the data
